

But, Why Do We Study This Lesson?

To be able to evangelize others, you need to experience a few things, such as:

- 1- The joy of salvation which achieved through the life of prayers, especially the Agpaya prayers
- 2- The spirituality of Orthodoxy that is tasted in the ecclesiastical life. The Divine Liturgy is a main source of this spirituality (please encourage others to use our Orthodox name: Divine Liturgy, instead of the common word 'Mass').

Therefore, unless you deeply taste the spirituality of the Divine Liturgy, you will not be able to proclaim the Orthodox spirituality to others. The world is hungry and thirsty to taste a real spirituality. Amazingly, some American or Europeans go to India or China to find spirituality while we have it as a hidden treasure in our church. But before we talk to others about it, we need to live it in its deep level to discover through it the connectivity to heaven.

This is why we will concentrate on this practical spirituality. **Please read and practice what you read in this lesson and on the following ones.**

We're going to use the following booklet:

[The Orthodox Divine Liturgy, An Invitation To A Heavenly Journey,](#)

You will find the book on our evangelism web page:

<http://evangelismcopticorthodox.org/booksbookletsbrochures.html>

To make the study more practical, we 're going to divide the book into three lessons. The first one covers from the beginning into the end of Chapter 1. While lesson 2 covers chapters 2 & 3. Finally, lesson 3 will cover the rest of the book.

In Christ's Love,
Victor Beshir
